

## PowerMouse - FlarmBat

Lx Nav produces twoflarm units.

The **PowerMouse** is intended for fixed installations and includes a built-in bluetooth module for connectivity to various PDA devices such as the Oudie or Android systems running software such as XC Soar, LK8000 or Top Hat. It has no display unit and must be connected to an external display such as the [Flarmview](#) or FlarmLED type display.
